we might, we cannot always be perfect! We expect to provide a Second Edition in the foreseeable future, so please send us corrections. We welcome any other suggestions to make this Directory more helpful to you.

Our Society has grown substantially over the last few years. (We are now over 500 strong.) This is positive because it can give us more clout in matters that concern us. Rapid growth is not without its challenges, however. It usually encourages a re-examination of an organization's identity. Many of us believe that SUPA has entered an important transitional period in which we have the opportunity to define the organization's character and direction for the future.

As Chairman of the Membership Committee, I invite, even exhort, you to participate actively in SUPA activities and to be generous with your ideas and suggestions.

Sincerely,

Edmund G. Regina

Dear SUPA Member,

We are pleased to present you with the first edition of the SUPA Membership Directory. In addition to the listing of members, the Directory is cross-indexed by institution. It should prove a useful resource to you; please use it.

A great deal of work went into making the Directory. Special thanks to the members of the Office of Technology Licensing, Harvard Medical School and, especially, to Ms. Shirley Crall for all her care and effort in collecting and collating the information, as well as overseeing its design and printing; a terrific job.
