9. Number of Determinations Giving Greater Rights in Identified Inventions	37	8	6	11	10	39 D/	1	0	2	11	0
10. Number of R & D Contracts with Patent Clauses	4,230	204	2,458	2,569	2,277	1,447	505	63	361	66	1
11. Number of R & D Grants with Patent Clauses	14,639	0	5	0	127	422	269	57	0	175	0
12. Exclusive Licenses Granted on Patent and Patent Applications in Department's Patent Portfolio from 1971 through 1976	19	- E/	0	0	0	11	0	0	0	0	0

A/ The DHEW Patent staff is currently handling all of the VA's and AID's patent problems in cases related to the Department's health mission.

B/ Disclosures in which the contractor has exercised its first option to retain title based on a contract clause providing this right are not included in this item, which explains the difference in totals between items 2 and 3.

C/ Substantially all of these disclosures represent inventions in which the contractor had a first option to retain title, but elected not to do so, indicating that these inventions had no substantial commercial potential.

D/ These determinations were handled by the NASA "Inventions and Contributions Board," not by the NASA patent staff.

E/ (-) Fiscal Year 1976 data not available yet, but 0 through Fiscal Year 1975.

Statistics for 1, 3, 4, 6, 9, 10, 11 and 12 derived from Annual Report on Government Patent Policy - Federal Council for Science and Technology.
