~~In fact~~, ~~we~~ would suggest that the fragmentation (or oversight by other elements of the Dept.) you deem to be a "problem", may possibly be ~~in fact~~ be the "administrative and management controls" ~~you that have produced the Dept. you seek and which have already~~ that have produced the Dept. performance discussed. ~~How the add~~ Accordingly, presuming that ~~present~~ past controls have had a beneficial effect on performance there should be a reluctance to put in place additional controls that cannot be shown to enhance performance. The only time that fragmentation becomes

More specifically,

Your recommendation A.

It is unclear what "goods monitored" Also the patent branch all quoted "greater rights determinations"? or only "greater rights determinations"?

~~If the recommendation~~

Notwithstanding, which category the recommendation is directed to, it is not been demonstrated ~~clear~~ that the Patent branch ~~has~~ ~~a so knowledge of where each action it is responsible for~~ is not cognizant of the whereabouts of all items for which it is responsible. ~~For~~ The Department's ~~overall~~ past perform leads ~~logically to~~ to the conclusion that the patent branch has acted to

al problem in practice as when ~~one of the elements in the system~~ ~~determines to seek~~ to unilaterally ~~seek~~ goals that are not ~~communicated to the other~~ elements in the system

elements in the system have differing goals which has occurred in this department in the past.
