WORLD BANK OF LICENSABLE TECHNOLOGY (WBLT) DATABASE
An International On-Line Technology Transfer Information Service

SUBMISSION FORM

Please type both sides in English, using one form for each technology. Return to the Innovation Centre together with any additional non-confidential details (brochure, etc.). Products, technologies, and/or processes described on this form will be evaluated and inclusion in our files is entirely at the discretion of the Canadian Industrial Innovation Centre whose prime criterion will be the potential value to our subscribers.

When completing this form remember that this is used as a marketing document – the readers may not have a technical background. A clear, concise title is important. When subscribers search WBLT they initially see the explanatory title -- make sure the title adequately describes the technology. Please include your own reference number (if you have one) as part of the title.
