There shall be established within the Office of Evaluation of Medical Technology a unit responsible for facilitating the application and transfer of research findings and inventions made with the support of DHEW. The effort shall entail the development, implementation, and coordination of transfer of technology programs, including: patents, technical data, copyrights and other intellectual property polices.

All functions, positions, personnel and budget allocations currently assigned to the Patent Counsel in the Office of the General Counsel of HEW shall be transferred to the Office of Medical Evaluation in order to administer the above designated responsibilities.
