AUTHORITY: This agreement is entered into under the terms of NTIS enabling legislation, 15 Code 1151-1157 and 1525-1527.

AN AGREEMENT between the National Technical Information Service of the United States Department of Commerce, a duly constituted agency of the Government of the United States, hereinafter referred to as NTIS, and _____, hereinafter referred to as the Source Client.

WHEREAS, NTIS is authorized by section 1152, Title 15, United States Code, to collect, from whatever sources that may be available, scientific, technical, and engineering information and to make such information available to industry and business, to state and local governments, to other agencies of the Federal Government, and to the general public.

WHEREAS, the Source Client has produced specialized technical publications which the Source Client desires to make publicly available; and

WHEREAS, due to the highly specialized nature of the Source Client's publications and their limited potential distribution, it is unlikely that the publications can be effectively made available to the U.S. public other than through the NTIS information system; IT IS AGREED:

I. Program Specifications

A. The Source Client will provide NTIS with one copy each of its publications to be registered in the NTIS data base. This agreement does not oblige the Source Client to register publications it wishes to withhold, nor does it oblige NTIS to register publications it wishes to reject.

B. NTIS will reproduce and sell the Source Client's publications in paper copy and microfiche on a non-exclusive basis.

C. The terms of this agreement shall not apply to Source Client publications registered in the NTIS data base prior to the effective date of this agreement.

II. Submission and Processing of the Publications

A. The publications submitted to NTIS shall be suitable for photo-duplication.

B. The Source Client will provide all necessary releases for copyrighted material.

III. Publication Price and Apportionment of Sales Revenue

A. The publications shall be priced according to the "Price Schedule," which is attached to and made a part of this agreement.

B. Both paper copy and microfiche copy of each publication shall be priced the same.

C. NTIS shall retain 75% of the selling price for each paper copy and microfiche of each publication sold in order to recover its cost for processing, reproducing, and marketing the publications.

D. In exchange for the right to promote and sell the publications, NTIS shall return to the Source Client 25% of each paper copy and microfiche sold.

E. NTIS shall provide the Source Client a quarterly accounting statement reflecting the number of copies of the publications sold and the resulting division of revenue between NTIS and the Source Client. Quarterly payments shall be made to Source Client based on this statement.

IV. Marketing

A. NTIS shall publicize the availability of the publications in the various NTIS announcement media and special catalogs.

B. No geographical limitations are placed on the distribution of these publications by the Source Client at its own prices.

V. Order Fulfillment

A. NTIS shall receive, process, and fill orders for the publications and shall collect the full price for each copy of the publication distributed.

B. No limitations are placed on the distribution of these publications by the Source Client at its own prices.

VI. Duration and Modification

A. This agreement shall become effective upon signature of an authorized official of NTIS and shall remain in effect until _____. At that time, effectiveness of the program will be evaluated.

B. The provisions of this agreement may be modified or amended only with prior written approval of both parties.

VII. Termination

A. The rights and obligations defined by this agreement may be terminated by either party at any time upon not less than sixty (60) days prior written notice to that effect to the opposite party. Upon termination of this agreement, NTIS will retain the right to continue to reproduce those documents that have already been processed into the NTIS collection. NTIS will continue to return 25% to the Source Client on the sale of those documents for a period of one year after termination of this agreement.

B. Notice of termination of this agreement shall be sent to the Authorized Signatory of the opposite party, as identified in Section IX. Notice shall be deemed effective as of the date of the signing of the termination letter.

1. Registration of Documents and Computer Products

a. The Source Client shall provide NTIS with its material as soon as available, to be registered into the NTIS information system for announcement and sale. NTIS encourages the use of the American National Standards Institute (ANSI) standards Z 39.23 as a document preparation guide for paper copy and recommends that Form 272 (Report Documentation Page), be completed with the details of each document submitted. Registration includes inventory control, cataloging, indexing, abstract review, and creation of a machine record of the bibliographic information. NTIS shall announce the availability of the Source Client's material through its various announcement media. Bibliographic data describing the Source Client's material shall be stored for bibliographic search. Microfiche masters, as applicable, shall be prepared to permit reproduction of microfiche duplicates and paper copy. The microfiche master should be prepared in accordance with ANSI, NMA, COSATI or DOD specifications. Microfiche used to produce paper copy can only be 24x, 8½ x 11 inch page size of 98 grid or 20x, 8½ x 11 inch page size of 60 grid. All other microfiche sizes will be used for microfiche duplications only. Paper copy, microfiche, and computer products shall be available for sale through the NTIS information system.

b. The Source Client agrees to include sufficient information to permit identification of reports in any listing prepared by the Source Client. The listing will include accession/report numbers, and sales prices or codes whichever is appropriate for the type of listing. The listing will display current ordering information obtained by contacting the NTIS Order Processing Branch.

2. Document Submission

a. (1) Documents submitted in paper copy should include a completed Report Documentation Page, Form 272 (4-77) and be accompanied by one or more Accession Notice Cards (NTIS Form 79). Forms 272 and 79 are to be completed according to the printed instructions on the forms or as specified in the agreement.

Documents not accompanied by a completed Form 272 will be transmitted by a letter authorizing NTIS to reproduce and sell. NTIS will prepare the Report Documentation Page, Form 272, for a $5.00 charge per document.

Form 79 will be filed by title and utilized to prevent duplicate reports being processed by the Source Client and NTIS. It is also a reference tool for notifying an inquirer of the titles availability from NTIS, its price, and accession number. The source client can prevent duplicate shipments of documents to NTIS from other sources by attaching to the archive copy, Accession Notice Cards (Form 79) addressed to other offices likely to send the same titles to NTIS.

Computer products shall be accompanied by a Computer Products Catalog Data Sheet (NTIS Form 231) and a Computer Magnetic Tape File Properties Form (Standard Form 277) (FIPS Pub 53).

(2) If the performing organization is not using a report number in conformance to the ANSI Standard Z 39.23, consult the NTIS Report Number Clearinghouse, (703) 487-4696.

b. A standard version of the Source Client's name and address, not to be varied from card to card, shall be entered on the reverse side of the NTIS Form 79.

Documents and tapes shall be addressed to:

National Technical Information Service

ATTN: Information Services Division (plus NTIS assigned Source Code) for documents only

or

ATTN: Computer Products Office (plus NTIS assigned Source Code) for computer products and/or tapes only

5285 Port Royal Road
Springfield, Virginia 22161

c. Documents submitted for registration shall be subject to NTIS publication, reproduction format, and content requirements. If the document, or any portion thereof, is copyrighted, or otherwise restricted, a letter addressed to NTIS signed by an authorized person granting release or permission to reproduce and sell the document must accompany the processing copy.

In the case where the U.S. Government has been granted authority to reproduce and sell by virtue of contract, or has otherwise been granted this authority, this statement must be used:

The U.S. Government is authorized to reproduce and sell this copyrighted work. Permission for further reproduction must be obtained from the copyright owner.

In the case where the U.S. Government does not have the right to reproduce and sell, and authority has been obtained from the copyright owner, this statement shall be used.

> The U.S. Government (or NTIS) is authorized to reproduce and sell this copyrighted work. Permission for further reproduction must be obtained from the copyright owner.

All expenses incurred because of the republication of copyrighted material will be borne by the Source Client. In the case where NTIS, as the publisher, is required to pay the fee, NTIS will accept the funds from the source and make the required payment.

Books or articles written by U.S. Government employees while on duty normally cannot be copyrighted. Special exceptions may be granted to permit a copyright for such work. When a book or article written by a Government employee bears a copyright and the Government employment is not noted in book or article, a letter affirming the status of the author as being a Government employee must accompany the document.

When there is more than one author and each is a Government employee, each author must be affirmed. In the case where one of the authors is not a Government employee, the book or article should be considered a copyrighted work.

Translations made from text published in a country signatory to the Geneva Copyright Convention shall contain a signed statement in Box 18 of the Form 272 (or a letter addressed to NTIS referring to the specific translation) to the effect that:

(1) Original text is not copyrighted

or

(2) NTIS or the U.S. Government has been authorized to reproduce and sell this copyrighted work. Permission for further reproduction must be obtained from the copyright owner.

When statement (2) is entered, the Source Client will provide NTIS with a copy of the authorization letter.

d. Attempts should be made by the Source Client to obtain legible reproducible copies of documents to be registered at NTIS. If the Source Client believes the documents will not meet the NTIS reproduction standards, the client shall add a disclaimer notice stating the office where users may write for information on the illegible portion of copy. Inclusion of a disclaimer in a document does not necessarily mean that the document will be accepted and registered at NTIS. NTIS shall remove the disclaimer if not required.

3. Pricing

NTIS shall sell registered documents in accordance with the pricing schedules as announced in the Federal Register. To permit NTIS to maintain the lowest possible price schedules, the Source Client should refer requests for reports to NTIS and avoid secondary distribution of free copies to the public.

4. Marketing

A number of information and marketing programs are used, as applicable, by NTIS to provide regular and ongoing visibility to the Source Client documents under NTIS bibliographic control. These programs include (but are not limited to) awareness publications, computer search files, and promotion pamphlets, such as:

NTIS Abstract Newsletters

Government Reports Announcements and Index
Government Reports Annual Index

LIBDUT, Delft, The Netherlands

Pending a formal agreement between NTIS and the Government of The Netherlands, the following Arrangement will apply between the organizations named above, hereby stating that they will cooperate in this Arrangement, the so-called Netherlands' Participating Organisations Arrangement. This Arrangement is open to all Netherlands organisations. Under this Arrangement the following conditions are agreed upon by both parties:

1. The NPO's will provide to NTIS either directly or through other data base producers such as NASA, DOD, DOE, with technical reports produced by them and they will use their best efforts to make available to NTIS technical reports produced by other organisations in the Netherlands working within the same scope, or at least cooperate on this activity.

2. Reports furnished to NTIS under terms of this Arrangement, and which meet NTIS' acquisitions criteria, will be entered

into the NTIS Bibliographic Data File, announced in Government Reports Announcement and Index and, where appropriate, Abstracts Newsletter, and offered for sale to the general public on a not-for-profit basis. Copyrighted publications from The Netherlands, which rarely occur, will either be accompanied by a release from the copyright-holder (**NTIS is granted permission to reproduce and sell, on a not-for-profit basis. The publication(s) listed below**) or be marked with a note, indicating how copies can be obtained. In the latter case NTIS may not reproduce that publication.

4. All NPO's may purchase NTIS products and services at U.S. prices rather than the foreign prices.

5. All shipments from NTIS to the NPO's will be made to a single address in The Netherlands by air freight collect.

6. NTIS products obtained by the NPO's under the terms of this agreement may be reproduced and sold, in The Netherlands only, on a cost-recovery, not-for-profit basis without additional compensation to NTIS. This grant does

not apply to materials which are copyrighted by an entity other than NTIS.

7. This Arrangement may be terminated by NTIS or the NPO's by delivery of written notice at least thirty days in advance to the other party. After termination of this arrangement, the NPO's keep the right to reproduce and distribute NTIS materials obtained under this Arrangement. Likewise, NTIS keeps the right to reproduce and sell materials obtained under this arrangement. The terms specified in this arrangement remain applicable in both cases.
