Re: New U.S. Patent Application
Don F. Yeager
TAMPER EVIDENT WIDE MOUTH CONTAINER AND LID
Our Ref: YEAGER=1

Dear Don:

Per your instructions, we have now prepared a patent application on the above-identified subject, copy attached with the formal papers (filing declaration and small entity declaration).

Please review the application carefully, and if everything is okay, please execute the application by signing and dating the declaration. ~~The small entity declaration should be executed on the same day.~~ Please return all these papers to us for filing.

If there are any substantial changes which you feel need to be made, please give me a call. Minor changes can be made by interlineation in ink before you execute the application (no changes are permitted between the time of execution and the time of filing); adjacent each interlineation please place your initials and the date.

If you are aware of any pertinent prior art or other material information which the Examiner might want to see, please advise.

We await hearing from you.

Sincerely,

Norman J. Latker
