February 29, 1980

Ken,

Enclosed you will find the rather lengthy letter to the Senator which you suggested might be in order, as well as some materials on WARF for your information and review.

I have also enclosed a copy of my testimony on S. 414 and a long paper which I prepared analyzing the impact of government or contractor ownership of patents on competition, innovation, public health, economic growth and jobs and on foreign competition.

I trust these materials will be helpful to you.

Sincerely,

Howard
