May 15, 1980

The Honorable William Proxmire
United States Senate
5241 Dirksen Senate Office Building
Washington, D.C. 20510

Dear Senator Proxmire:

Recently I wrote to urge your support for S. 414, the University and Small Business patent legislation.

We are pleased that this bill passed the Senate by a vote of 91 to 4 and appreciate your support for the measure. I am hopeful that it will receive similar favorable consideration by the House of Representatives. We are convinced that this proposal represents sound public policy. It will not only be of assistance to our universities, but will assist this country's productivity as well.

Sincerely,

Irving Shain
Chancellor
