TO: Howard Bremer and Marv Woerpel

FROM: Kent Hill Kent

I received your December 5th note and will call Mr. John Manning of NASA. It would be great if an Institutional Patent Agreement could be worked out.

On another topic, because I'm finding myself moving somewhat slowly on several recent invention disclosures, I thought I should send you copies of the disclosures before I have completed a review of the salary and grant support (it may be that you already have copies). If you could then determine what WARF's involvement should be while I complete my review, we could meet and together chart a course of action.

If you have any questions or comments, let me know.
