Dear Bill:

As per our conversation this morning over the telephone, I suggest that the attached draft be considered more as a memorandum of items to be discussed with Price, Clesner, Parent, etc., rather than as a draft of letter to be sent from us to you. In other words, some of the items in this draft might better be brought up and thrashed out in a personal conference rather than incorporated in any letter or other writing.

We will discuss these matters Thursday morning at 8:30.

Best regards,
