Dr. Fred Harvey Harrington
President
The University of Wisconsin
Madison, Wisconsin

Dear Fred:

Many thanks for your letter of April 21. I have a date with Professor William Young next Monday, and after that Ward and I will see when we can arrange a date with you and Vice Presidents Clodius and Peterson, and Professor Young for further discussions relative to this entire important matter of the patent business.

I find that from my standpoint May is going to be badly broken up by a number of travel obligations, but shortly after my visit with Professor Young I will get in touch with you.

With all good wishes,

Sincerely,

DCS:b
