Dear Ms. Cianci:

We received your letter of December 11, 1996, concerning the painting "Man By A Campfire" by Pablo Picasso. Our last letter requested more specific information about how the copyright in this work may have passed from Picasso to your great grandfather down to you. Unfortunately, you were unable to give us any additional documentation to support your claim.

The information you have provided the Copyright Office does not adequately support registration of a claim to copyright in your name. Since the ownership of the copyright in this work is unclear, we are closing the file on this case.

Sincerely,

Marybeth Peters
