"This Storm Won't Last"

"I knew it was coming, and I know it's most over—by my *Tycos* Barometer"

KNOW when a storm is coming and its probable duration. Know all about the weather and its vagaries hours ahead. Made possible through possession of this

Tycos Aneroid Barometer

(No. 2252)

The only barometer adjustable for any altitude up to 3500 feet. An exclusive *Tycos* feature. Richly finished handsome brass case, easy reading dial.

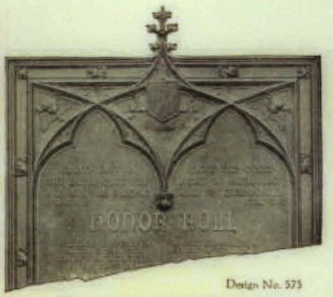

Your dealer can supply you. If you experience any trouble remit us—$15—specifying No. 2252—we will send it at once. Safe delivery guaranteed. Price in Canada and the far West correspondingly higher.

Send 10c. in stamps for booklet "Practical Hints for Amateur Weather Forecasters."

Berlin

ON BOTH SIDES OF THE WALL

Article and photographs by
HOWARD SOCHUREK

JUST BELOW our hovering helicopter, the ramparts of the Berlin Wall cleft the city, separating families, a people, world powers, and, where they plowed a concrete furrow through cemeteries, even the dead from the dead.

Col. Richard H. Ferriter, Chief of Staff for the United States Commander, Berlin, pointed to a section with both inner and outer walls.

"That sandy area between them is called the 'death strip,'" he said. It was late afternoon, and East Berlin workmen under guard were carefully raking the sand and checking the trip wires. They were watched by wild-looking dogs tethered to long running lines. One of the animals lunged furiously upward at our craft, his bark drowned in the clatter of blades as we swung away.

At the foot of a small street, Bushgrabenweg, an ugly new mushroom was sprouting—a 30-foot concrete watchtower. It stands next to a ramshackle wooden structure thrown up in 1961 when the German Democratic Republic, the Communist state that rules in the Soviet zone of defeated Nazi Germany, imprisoned its own people by building this wall.

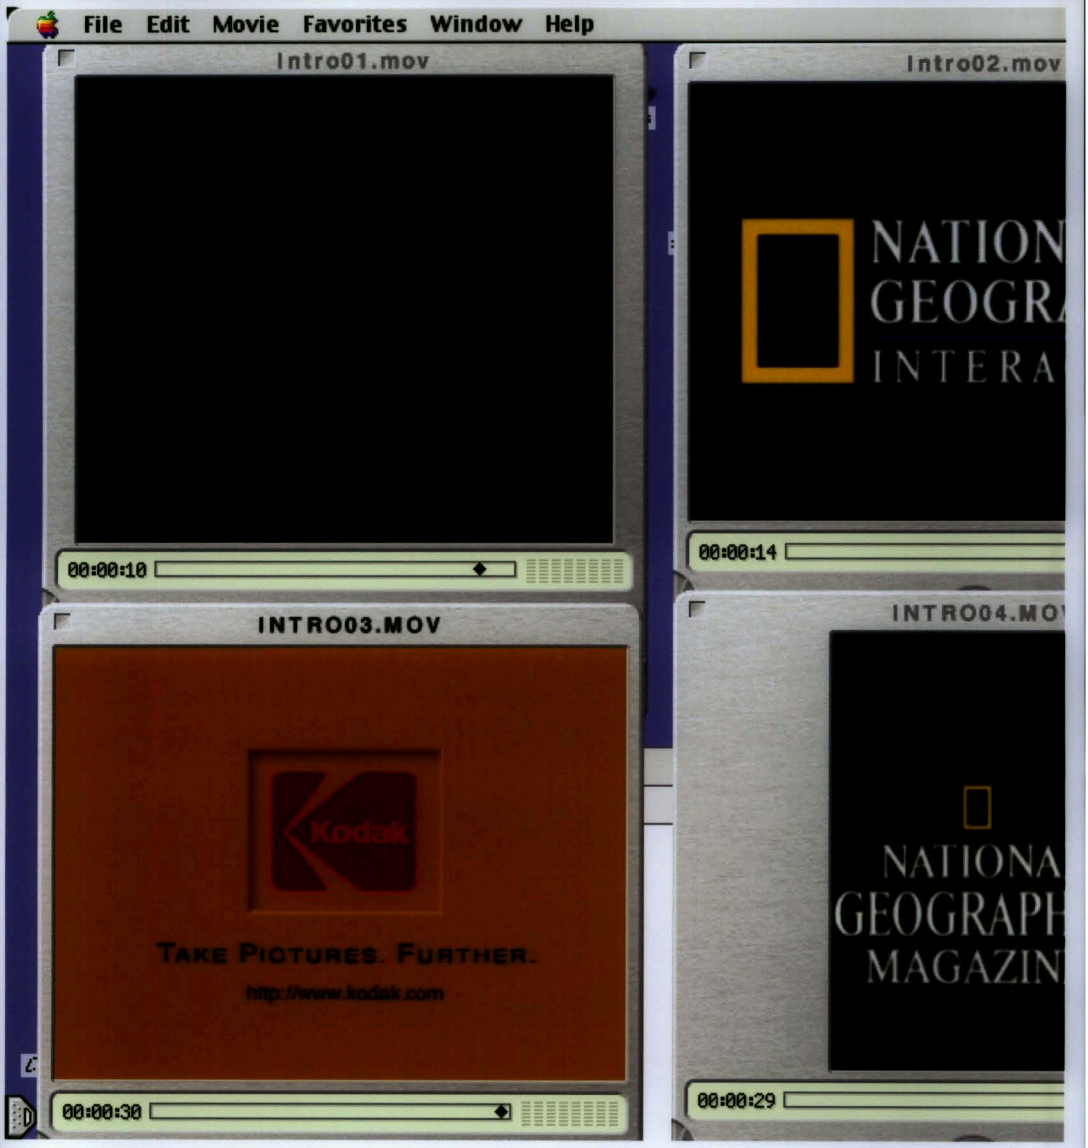

As our chopper zigged and zagged along the twisting course of the barrier (next two pages), the city below unrolled a tapestry of its history. Guards idled at the grassy mound covering Hitler's bunker, the underground shelter where the Führer's dream finally ended in suicide. The Brandenburg Gate, emblem of imperial Berlin, seemed as old and worn as Stonehenge in the evening light. Just inside West Berlin, the famous Reichstag was being restored; 37 years ago the Nazis destroyed it by fire. They saddled the Communists with the blame and gained emergency powers that ended parliamentary government.

I reflected on an irony: Berlin began life some 800 years ago as a divided city—a trading town called Kölln on a sandy island in the Spree River, and a riverbank settlement named Berlin. As the settlements grew, they were connected by a bridge.

Even in this early seedtime, when the two small communities bickered with each other but shared a common meeting hall, the ancient town had a modern political outlook. It was governed by the Margrave of Brandenburg as a part of the *Mark*, one of several border regions used as buffers against the threat of Slavic incursions from the East.

For 500 years Berlin grew under the rule of the Hohenzollerns. The second of that line

sunlight on the steel sphere of the 1,185-foot television tower, pride of the atheistic state.

Summer retreat of a Prussian ruler, Schloss Sanssouci bespeaks the French tastes of Frederick the Great. In the 1740's he designed the rococo residence with French floor plans and named it "Castle Without Care." Tourists by the thousands visit the palace in Potsdam, outside West Berlin in East Germany.

The statistics are truly appalling. Between 1936 and 1945, the Nazis herded 200,000 persons into the camp—political undesirables, Jews, and captured Russian soldiers; 100,000 of them were killed by shooting or hanging. Of 20,000 Russian prisoners brought here, 18,000 were murdered.

Jürgen Toft and I drove to Sachsenhausen early one rainy Sunday afternoon. A gray mist hung over the camp as we arrived. Built in the form of a huge walled triangle about 2,000 feet long on each side, it sits in a piney forest. On each corner of the triangle and at regular intervals along the wall are watchtowers that once housed Hitler's elite guard, the Schutzstaffel. On all sides today I saw Russian soldiers, members of the occupation army, now living in the former SS barracks.

Prisoners were quartered communally in one-story frame barracks 100 feet long and 30 feet wide. Around a roll-call square, 86 such barracks were arranged in the shape of a fan.

27180679.JPG

Nineteenth-century sanctuary of art and learning, Museum Island in the Spree River suffered artillery hits in the last days of World War II. Now in the East, the Alte—or Old—Museum, decorated by this bronze Amazon battling a tiger, reopened only in 1966. The Dom, once the major Protestant cathedral, remains unrestored. Some see irony in the cross of reflected

The years of Nazi oppression still darken the memories of Berliners. After the war, Bertolt Brecht, the antifascist playwright, settled in East Berlin and founded one of Europe's noted theaters, the Berliner Ensemble. Today his widow runs the theater. In recent years it has played a smash hit to packed houses: *The Resistible Rise of Arturo Ui*, a powerful indictment of the Nazi era (pages 16-17). Oddly, regulations, which permitted me to photograph the play, forbade my making pictures of the audience responding to it.

A stronger indictment of the Nazis lies not far away. The Ulbricht government, as part of its propaganda, pays fastidious attention to the details of the Nazi era. The infamous concentration camp called Sachsenhausen lies a half-hour drive to the north of the city. It is maintained as a memorial. On Sundays, young East Berliners flock there, along with tourists from the Soviet Union, Hungary, Czechoslovakia, and Poland.

the missing facial bones. Though shattered like the rest of the skull, beside them lay both halves of a tooth-studded upper jaw.

Analysis of the teeth and of pelvic, arm, and leg bones recovered later showed that this fossil skull was that of a boy, no more than 12 years old at death.

During the next three weeks we had the exquisite pleasure of unearthing almost an entire *Homo erectus* skeleton, the first recovered of such antiquity—1.6 million years old—and the earliest set of one individual's bones found in situ. Limb, rib, and collarbones appeared, along with vertebrae and the lower jaw, one of the very few ever to be matched to its skull. To find a more complete skeleton, we must jump forward in time to 100,000 years ago, when Neandertal man began to bury his dead.

This spectacular find dramatically confirms the antiquity of the human form. In its parts and proportion only the skull of the Lake Turkana boy would look odd to someone untrained in anatomy. The rest of his skeleton, essentially human, differs only subtly from that of a modern boy.

And too, because it is a youth's skeleton and so complete, it offers us a unique glimpse of growth and development in early humans. At five feet four inches tall, the boy from Turkana was surprisingly large compared with modern boys his age; he could well have grown to six feet. Suitably clothed and with a cap to obscure his low forehead and beetle brow, he would probably go unnoticed in a crowd today.

This find combines with previous discoveries of *Homo erectus* to contradict a long-held idea that humans have grown larger over the millennia. Our ancestors on the African savanna may have been much taller than we ever imagined. Indeed, we may have reached our present general size more than a million and a half years ago, with some populations in poorer environments becoming smaller fairly recently.

Only luck, the presence of a supply of underground water, and the scanty shade of a few parched thorn trees first drew us to the Nariokotome River and the skeleton of the boy from Lake Turkana. During the 1985 excavation, we began to uncover the last of the missing bones, adding another page to his biography—and to mankind's. □

MUMMIES
1985
1988

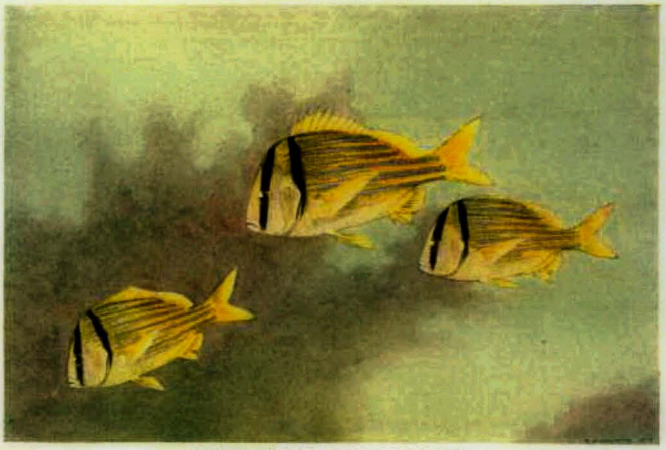

THE SQUIRREL FISH OR SOLDATO (*Holocentrus ascensionis*)

These bright hued habitants of the tropical seas are to be found in the waters surrounding the Bermudas, Florida, the West Indies, St. Helena and Ascension Island. They reach a length of two feet, and are considered a good food fish.

THE PORK FISH (*Anisotremus virginicus*)

This important food fish, found from Florida to Brazil, reaches a length of fifteen inches, and lives in large numbers about coral heads and reefs. It is easily trapped by market fishermen.

Copyright © 1997 National Geographic Society, All Rights Reserved

THE SERGEANT MAJOR OR COW PILOT (*Abudefduf saxatilis*)

As its name, saxatilis, implies, this inhabitant of tropical American waters lives among the rocks. It attains a length of six inches and is not used for food.

THE RAINBOW PARROT-FISH (*Pseudoscarus guacamaia*)

Weighing as much as sixty pounds, the Rainbow Parrot-fish is the largest of its family. The flesh is soft but of very good flavor. It is found from the Florida Keys to Rio de Janeiro, and lives on mollusks, worms, and several species of algae.

Install the Ink Cartridges

Follow these ink cartridge precautions:

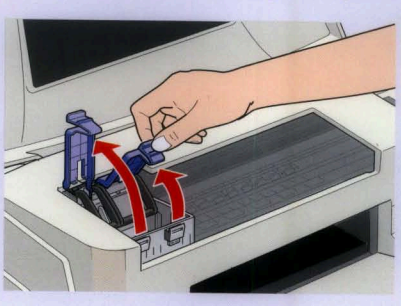

- Install both ink cartridges, and leave them installed for all types of printing, or the printer won't work.
- Remove the yellow tape seal from the top of the ink cartridges or you'll permanently damage them. Don't remove the clear seals on the bottom or ink will leak out.
- Don't open an ink cartridge clamp to remove a cartridge except to replace it with a new one. Once you remove a cartridge, you can't reuse it, even if it contains ink.
- Never turn off the printer when the ⏻ power light is flashing, unless the printer hasn't moved or made any noise for more than 5 minutes.

Keep ink cartridges out of the reach of children.
If ink gets on your hands, wash them thoroughly with soap and water.
If ink gets in your eyes, flush them immediately with water.

1 Lower the output tray and open the cover.

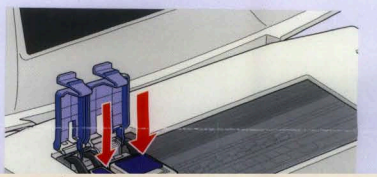

2 Lift up the two ink cartridge clamps.

3 Unwrap the ink cartridges, then remove only the yellow part of the tape seal on top.
Don't pull off the blue part.

4 Insert both ink cartridges with the labels facing up as shown. Press down the clamps until they lock into place, but don't press down on the ink cartridges.

- Install both ink cartridges, and leave them installed for all types of printing, or the printer won't work.
- Remove the yellow tape seal from the top of the ink cartridges or you'll permanently damage them. Don't remove the clear seals on the bottom or ink will leak out.
- Don't open an ink cartridge clamp to remove a cartridge except to replace it with a new one. Once you remove a cartridge, you can't reuse it, even if it contains ink.
- Never turn off the printer when the ⏻ power light is flashing, unless the printer hasn't moved or made any noise for more than 5 minutes.

Keep ink cartridges out of the reach of children.
If ink gets on your hands, wash them thoroughly with soap and water.
If ink gets in your eyes, flush them immediately with water.

1 Lower the output tray

2 Install the Software

Now that you've set up your printer, you can install its software from the CD-ROM.
Keep this card with you as you install your printer software so you can refer to it when you need to.

If you're using Windows 3.1, a printer driver is included on the CD-ROM. To install it, run Setup in the Browser/Drivers folder.

Windows 98 with USB Connection

1. Turn off your printer. Then turn on your computer.
2. Now turn on your printer. You see the Add New Hardware Wizard screen.
3. Insert your printer software CD-ROM and click **Next**.
4. Select **Search for the best driver for your device** and click **Next**.
5. Click the **Specify a location** checkbox, then click **Browse** and locate the **Browser\Drivers\Win9x** folder on your CD-ROM. Click **OK**, then click **Next**.
6. The screen now displays **EPSON USB Printer**; click **Next**. When the installer is done copying files, click **Finish**.
7. The screen now displays your printer model; click **Next**.
8. Repeat steps **4** and **5**.
9. Follow the instructions to install your printer driver. Click **Yes** to make your printer the Windows default, if necessary. At the last screen, click **Finish**.

Now you're ready to install your creative software and electronic manual.

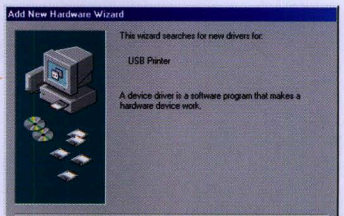

Macintosh with USB Connection

1. Turn on your printer, if necessary. Then turn on your Macintosh.

If you're using Windows 3.1, a printer driver is included on the CD-ROM. To install it, run Setup in the Browser/Drivers folder.

Windows 98 with USB Connection

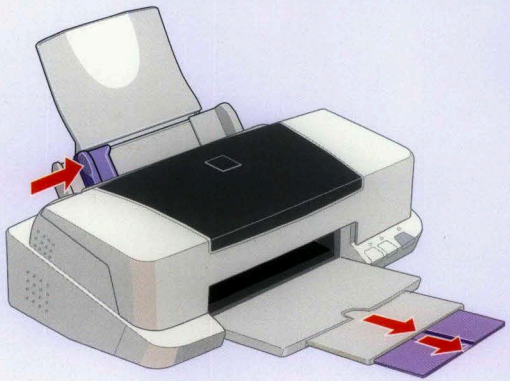

1. Turn off your printer. Then turn on your computer.
2. Now turn on your printer. You see the Add New Hardware Wizard screen.
3. Insert your printer software CD-ROM and click **Next**.
4. Select **Search for the best driver for your device** and click **Next**.

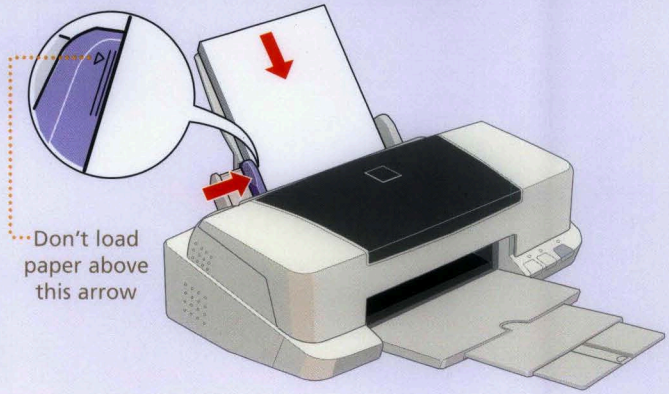

Put in Paper

You can load a stack of plain paper or special ink jet paper. See the *Printer Basics* book for special paper loading steps.

1. Pull out the output tray extensions. Slide the left edge guide so it's slightly wider than your paper.

2. Load paper against the right edge guide, then slide the left edge guide against it.

CPD 8992

Turn over

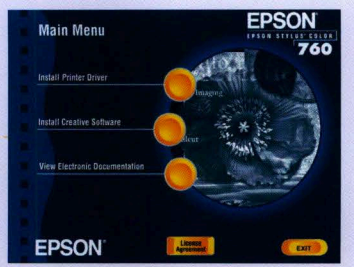

Now you're ready to install your creative software and electronic manual.

Windows 95/98/NT 4.0 with Parallel Connection

1. Turn on your printer, if necessary. Then turn on your computer.

CAUTION If you see a screen about Windows detecting your printer, **ALWAYS** select **Cancel**. You can't install your printer software that way.

2. Insert your printer software CD-ROM.
3. Double-click the **My Computer** icon on your desktop.
4. Double-click your CD-ROM icon. Then double-click the **EPSON** icon to start the installer. (Don't select any other icon in the folder.)
5. Read the license agreement and click **Agree**. You see the Main Menu.
6. Click **Install Printer Driver**. You see the printer driver installation screen.
7. Click your printer model icon, if necessary, then click **OK**. The installer copies files to your system.
8. When it's finished, click **OK.** Then click **EXIT** and restart your computer. **Leave in the CD-ROM as your system restarts**.

Now you're ready to install your creative software and electronic manual.

Connect the Printer to Your Computer

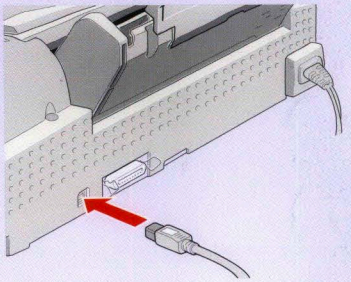

Connecting to a USB Port

(Recommended connection; only for Windows® 98, iMac™, and Power Macintosh® G3 systems; see "System Requirements" in the *Printer Basics* book for details)

1. Make sure the printer and computer are turned off.
2. Connect the end of the USB cable to your printer's USB port.
3. Connect the  end of the cable to your computer's USB port or a first tier USB hub port.

If you're using a USB hub, connect the printer to the first tier of the hub or the printer may malfunction. If the printer doesn't work there, connect it directly to a USB port on your computer.

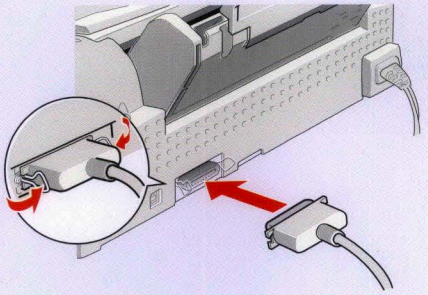

Connecting to a PC Parallel Port

1. Make sure the printer and computer are turned off.
2. Connect the parallel cable to your printer's parallel port. Then secure it with the wire clips.
3. Connect the other end of the cable to your computer's built-in parallel port and secure it as necessary.

If your computer has multiple parallel ports, connect your printer to the built-in port (LPT1). To use a different port, see Windows help. To configure your computer to match your printer's maximum speed, enable ECP/DMA mode, if possible. See your computer documentation.

Turn on the Printer

1. Plug the printer's power cord into a grounded electrical outlet.
2. Press the ⏻ power button to turn on the printer. The ⏻ power light flashes and the black and color ink out lights come on. The ink cartridge holders move left into loading position.

Don't use an outlet that is controlled by a wall switch or timer, or one on the same circuit as a large appliance, to avoid damaging the printer's power supply. Always use the ⏻ power button to turn the printer on or off. Never use an external switch, such as a power strip switch.

3 Print an Image

Now that you've set up your printer, you're ready to print.

For a quick lesson, run the EPSON Guided Printing Exercise and follow the steps to print this sample color image:

The instructions tell you how to load sample paper from the EPSON Photo Quality Media Pack included with your printer.

To get started, double-click the icon on your Windows desktop, or in the Macintosh **EPSON Guided Printing Exercise** folder.

(If you didn't install the EPSON Guided Printing Exercise yet, follow the instructions in the previous section.)

Read your *Printer Basics* book for more details about your printer.

CPD 8992

YOU'RE READY TO PRINT!

START HERE

1 Set Up the Printer

Unpack Everything

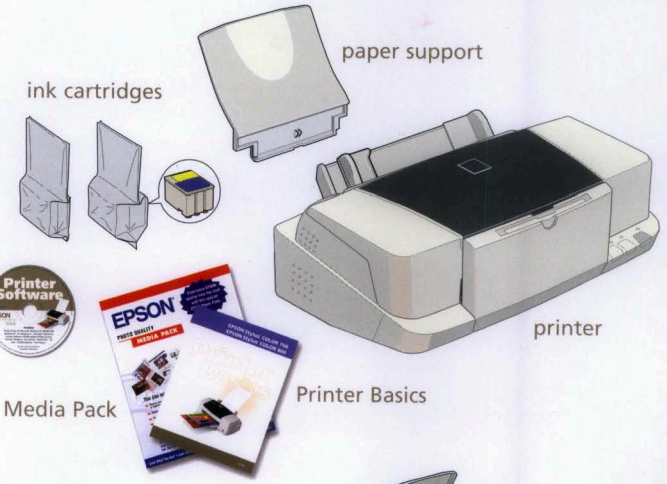

Remove all the tape and packing material from the printer. See the unpacking sheet in the printer box for instructions.

Make sure you've got a parallel or USB cable to connect your printer. See "System Requirements" in the *Printer Basics* book.

Don't place the printer in areas:

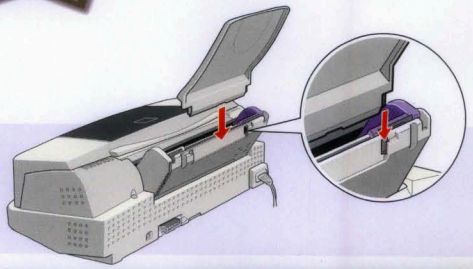

- with high temperature or humidity
- in direct sunlight or dusty conditions
- with poor ventilation
- near sources of heat or electromagnetic interference, such as a cordless telephone base unit

Follow all the "Safety Instructions" listed in the *Printer Basics* book.

Put on the Paper Support

Insert the paper support into the slots on the back of the printer.

Install Creative Software and Electronic Manual

1. If you don't see the Main Menu after rebooting your system, do one of the following:

   Windows: Double-click **My Computer**, double-click your CD-ROM icon, then double-click the **EPSON** icon. If you see the license agreement, read it and click **Agree**. You see the Main Menu.

   Macintosh: Double-click the **EPSON** icon. You see the Main Menu.

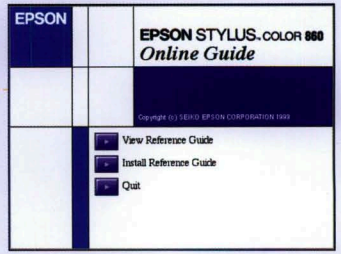

2. Click **Install Creative Software**. You see a submenu.

3. Select the button for **EPSON Guided Printing Exercise** or any other software you want to install. Then click the **Install** button and follow the instructions on the screen.

4. When you're finished installing software, click **Back** to return to the Main Menu.

5. Now click **View Electronic Documentation**. You see this submenu: Click **View Reference Guide** to view the electronic manual. To copy it to your hard disk and view it from there, click **Install Reference Guide** and follow the instructions.

NOTE If you don't have an Internet browser, such as Netscape Navigator™ or Microsoft® Internet Explorer, you won't be able to view the electronic manual. See your *Printer Basics* book for details.

6. When you're finished, close your browser and click **Quit**.

7. Click **EXIT** to exit the installer.

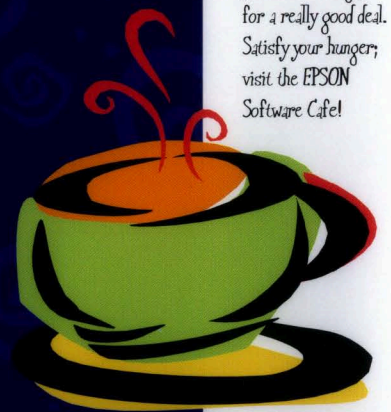

Now you're ready to print with your EPSON Stylus COLOR printer!

NOTE To share your printer over a network, see the electronic *Reference Guide* for configuration instructions.

Special Offer exclusively for Epson printer customers.

Seal Products, by Hunt Graphics, can enhance your output creations with the following special offers specifically for EPSON customers.

CHOOSE FROM 2 MODELS:

The Photo Laminator, which can handle most types of paper up to 9" in width or photographs using Seal's patented photo pouches. Laminating can add a glossy finish to your prints and make images pop. Laminating also protects your work from pollutants, moisture and spills, fingerprints and damage from handling, like fingerprints and tearing.

Or the Finishline Foamboard Laminator, which laminates all media up to 12" in width and also laminates and mounts onto 3/16" foamboard for the ultimate in professional finishing.

The following Epson media is compatible with these laminators: EPSON Photo Quality Ink Jet Paper, EPSON 360dpi Ink Jet paper, EPSON Photo Quality Glossy Paper and EPSON Photo Paper.
Note: EPSON Photo Quality Glossy Film is not compatible with heat laminators such as there. This offer is from Hunt Graphics, Inc. and Epson is not responsible for fulfillment or the use of Seal products.

EPSON® SEAL HUNT

EPSON®
EXCHANGE WARRANTY

If you have a problem, call EPSON first!

Epson's *Exchange Warranty* program provides the high quality standard of customer support and service that you have come to expect from Epson.

The EPSON Stylus® Color 760 printer you have just purchased was built to meet the exceptionally high quality standards of Epson products. Should you have a problem with your printer within one year of the date of purchase, please call the Epson Technical Support number below. Our helpful staff will apply their expertise and attempt to solve your problem. If repair is needed, Epson will, at its option, provide one of these services:

- Exchange—Epson will ship you a replacement unit, freight prepaid. You are responsible for returning the defective printer to Epson within five (5) working days of receipt of the replacement unit (We will include return instructions and you can use the same packaging from the replacement unit to ship the original printer back to Epson). Please be ready to provide your credit card number to secure the cost of the replacement printer in the event that you fail to return the defective one. Replacement units will be the same model or another model of equivalent features and may be new or refurbished to the Epson standard of quality. Replacement units assume the remaining warranty period of your original unit
- Repair - Epson will repair your unit. Just send your unit to Epson or its authorized service center, as directed by Epson, and it will be fixed and sent back right away.
- See the reverse side for the details. It's that simple.

Epson Technical Support:
(562) 276-7542 U.S.
(905) 709-2567 Canada

EPSON AMERICA, INC.
LIMITED WARRANTY

What is Covered: Epson America, Inc. ("Epson") warrants to the first end-user customer that the EPSON printer covered by this limited warranty statement, if purchased and used in the United States or Canada, conforms to the manufacturer's specifications and will be free from defects in workmanship and materials for a period of one year from the date of original purchase. Epson also warrants that the consumable ink cartridges enclosed with the printer will perform to the manufacturer's specified usage, which usage may expire before the expiration of the limited warranty for the EPSON printer.

What Epson Will Do To Correct Problems: Should your EPSON printer prove defective during the warranty period, please call the EPSON Connection at (562) 276-7542 (U.S.) or (905) 709-2567 (Canada) for warranty repair instructions and return authorization. An Epson service technician will provide telephone diagnostic service to determine whether the unit requires repair. If service is needed during the warranty period, Epson will, at its option, exchange or repair the unit without charge for parts or labor. If Epson authorizes an exchange for the defective unit, Epson will ship a replacement printer to you, freight prepaid.You are responsible for securely packaging the defective printer and returning it to Epson within five (5) working days of receipt of the replacement unit. You must provide a credit card number to secure the cost of the replacement printer in the event that you fail to return the defective one. If your printer is being repaired, Epson will direct you to send your printer to Epson or its authorized service center.The printer will be fixed and sent back to you. You are responsible for packing the printer and for shipping costs to and from the Epson authorized service center. When warranty service involves the exchange of the product or of a part, the item replaced becomes Epson property. The exchanged product or part may be new or refurbished to the Epson standard of quality. Exchange products or parts assume the remaining warranty period of your original product covered by this limited warranty. For any warranty service, you must provide proof of the date of original purchase.

What This Warranty Does Not Cover: This warranty covers only normal use in the United States and Canada. This warranty does not cover ink cartridges or third party parts, components, or peripheral devices added to the EPSON product after its shipment from Epson, e.g., dealer or user-added boards or components. Epson is not responsible for warranty service should the Epson label or logo or the rating label or serial number be removed or should the product fail to be properly maintained or fail to function properly as a result of misuse, abuse, improper installation, neglect, improper shipping, damage caused by disasters such as fire, flood, and lightning, improper electrical current, software problems, interaction with non-Epson products, or service other than as authorized by Epson. If a claimed defect cannot be identified or reproduced in service, you will be responsible for costs incurred.

THE WARRANTY AND REMEDY PROVIDED ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER EXPRESS OR IMPLIED WARRANTIES INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. SOME LAWS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES. IF THESE LAWS APPLY, THEN ALL EXPRESS AND IMPLIED WARRANTIES ARE LIMITED TO THE WARRANTY PERIOD IDENTIFIED ABOVE. UNLESS STATED HEREIN, ANY STATEMENT OR REPRESENTATIONS MADE BY ANY OTHER PERSON OR FIRM ARE VOID. EXCEPT AS PROVIDED IN THIS WRITTEN WARRANTY, NEITHER EPSON AMERICA, INC. NOR ITS AFFILIATES SHALL BE LIABLE FOR ANY LOSS, INCONVENIENCE, OR DAMAGE, INCLUDING DIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, RESULTING FROM THE USE OR INABILITY TO USE THE EPSON PRODUCT, WHETHER RESULTING FROM BREACH OF WARRANTY OR ANY OTHER LEGAL THEORY.

In Canada, warranties include both warranties and conditions.

Some jurisdictions do not allow limitations on how long an implied warranty lasts, and some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations and exclusions may not apply to you. This warranty gives you specific legal rights and you may have other rights which vary from jurisdiction to jurisdiction.

Expanding Possibilities

Printing Tips

HP Premium Photo Paper

Print professional-quality photos right at home with your HP inkjet printer and HP photo papers!

To print with HP DeskJet and DeskWriter series printers, HP OfficeJet Pro series, and HP Color Copiers:

1. Insert your HP Photo Cartridge in your printer (HP DeskJet 690C series only)*
2. Insert HP Premium Photo Paper in the printer IN tray with the Hewlett-Packard logos facing up.
3. Select "Print" from your application.
4. Set paper type to "HP Premium Photo Paper," (if no photo paper is available select "HP Glossy Paper").
5. Select "Best" print quality to get the highest-quality images.
6. Select "A (8 1/2 x 11 in)" as the size.

* If you have an HP DeskJet 690C, 692C, 693C, or 694C printer and use the HP Photo Cartridge with HP Premium Photo Paper, it is recommended that you obtain the updated printer driver (version 11.0 or greater) to obtain optimal printing results. To get the driver, go to www.hp.com/support/home_products and enter your product name. From there, select "Purchase a Performance Boost for your HP DeskJet" and follow the instructions. If you are using Windows NT, you do not need to download the new driver.

To print with HP DeskJet 900 series or HP PhotoSmart P series printers:

1. Insert HP Premium Photo Paper in the printer IN tray with the Hewlett-Packard logos facing up.
2. Select "Print" from your application.
3. Select your appropriate HP printer model from your setup dialog box.
4. Set paper type to "HP Premium Photo Paper, Glossy ."
5. Select "Best" print quality to get the highest-quality images.
6. Select "U.S. Letter (8.5 x 11 in)" as the size.

To print with HP PhotoSmart Photo printer:

1. Insert HP Premium Photo Paper in the printer IN tray with the Hewlett-Packard logos facing down.
2. Select "Print" from your application.
3. Select your appropriate HP PhotoSmart printer model from your setup dialog box.
4. Set paper type to "HP PhotoSmart Glossy Photographic Paper."
5. Select "Best" print quality to get the highest-quality images.
6. Select "U.S. Letter (8.5 x 11 in)" as the size.

To print with HP OfficeJet series:

1. Insert HP Premium Photo Paper in the printer IN tray with the Hewlett-Packard logos facing back.
2. Select "Print" from your application.
3. Set paper type to "HP Premium Photo Paper."
4. Select "Best" print quality to get the highest-quality images.
5. Select "A (8 1/2 x 11 in)" as the size.

To print with HP Printer/Scanner/Copier 300 Series:

1. Insert your HP Photo Cartridge in your printer.
2. Insert the HP Premium Photo Paper in the printer IN tray with the Hewlett-Packard logos facing back.
3. Select "Print" from your application.
4. Set paper type to "HP Premium Photo Paper."
5. Select "Best" print quality to get the highest-quality images.
6. Select "A (8 1/2 x 11 in)" as the size.

To copy with the HP OfficeJet Pro and HP Color Copiers:

1. Insert HP Premium Photo Paper in the printer IN tray with the Hewlett-Packard logos facing up.
2. Press the paper type button and use your Plus (+) and Minus (-) buttons until "Photo Paper" appears on the display.
3. Press the "Select/Resume" button.
4. Press the button for "Best" print quality.
5. Press "Color" to copy.
6. For multiple copies, consult your HP OfficeJet Pro or HP Color Copier owners manual.

Project Ideas

HP Premium Photo Paper lets you print your own photos, suitable for framing, right at home. You'll get professional-quality output suitable for all of your important photographs — weddings, family portraits, vacation photos, or any photo you want to display or give as a gift.

For photo printing ideas, along with projects to download and print, visit Printsville, HP's printing idea Web site at www.hp.com/go/printsville.

HEWLETT® PACKARD

Expanding Possibilities

Papier photo HP Premium

Imprimez des photos de qualité professionnelle à la maison avec votre imprimante à jet d'encre HP et les papiers photo HP !

Pour imprimer avec les imprimantes HP DeskJet et DeskWriter, les appareils OfficeJet Pro HP et les copieurs couleur HP :

1. Insérez la cartouche Photo HP dans l'imprimante (HP DeskJet série 690C seulement)*
2. Insérez le papier photo HP Premium dans le bac d'alimentation de l'imprimante, le logo Hewlett-Packard vers le haut.
3. Sélectionnez « Imprimer » dans votre application.
4. Sélectionnez « HP Premium Photo Paper » comme type de papier (si aucun papier photo n'est disponible, sélectionnez « HP Glossy Paper »).
5. Sélectionnez la qualité d'impression Supérieure (« Best ») pour obtenir des images de la plus haute qualité.
6. Sélectionnez le format « A (8,5 x 11 in) ».

* Si vous possédez une imprimante HP DeskJet 690C, 692C, 693C ou 694C et utilisez la cartouche photo HP avec le papier photo HP Premium, nous vous recommandons d'obtenir la plus récente version du gestionnaire d'imprimante (version 11.0 ou ultérieure) pour obtenir les meilleurs résultats d'impression. Pour obtenir ce gestionnaire, visitez le site www.hp.com/support/home_products et indiquez le nom du produit. Sélectionnez « Purchase a Performance Boost for your HP DeskJet » (Achat d'une amélioration pour votre DeskJet) et suivez les instructions. Si vous utilisez Windows NT, il n'est pas nécessaire de télécharger le nouveau gestionnaire.

Pour imprimer avec les imprimantes HP DeskJet série 900 ou HP PhotoSmart série P :

1. Insérez le papier photo HP Premium dans le bac d'alimentation de l'imprimante, le logo Hewlett-Packard vers le haut.
2. Sélectionnez « Imprimer » dans votre application.
3. Sélectionnez le modèle d'imprimante HP approprié à partir de la boîte de dialogue Configuration de l'imprimante.
4. Sélectionnez « HP Premium Photo Paper, Glossy » comme type de papier.
5. Sélectionnez la qualité d'impression Supérieure (« Best ») pour obtenir des images de la plus haute qualité.
6. Sélectionnez le format « U.S. Letter (8,5 x 11 in) ».

Pour imprimer avec l'imprimante HP PhotoSmart Photo :

1. Insérez le papier photo HP Premium dans le bac d'alimentation de l'imprimante, le logo Hewlett-Packard vers le bas.
2. Sélectionnez « Imprimer » dans votre application.
3. Sélectionnez le modèle d'imprimante HP PhotoSmart approprié à partir de la boîte de dialogue Configuration de l'imprimante.
4. Sélectionnez « HP PhotoSmart Glossy Photographic Paper » comme type de papier.
5. Sélectionnez la qualité d'impression Supérieure (« Best ») pour obtenir des images de la plus haute qualité.
6. Sélectionnez le format « U.S. Letter (8,5 x 11 in) ».

Pour imprimer avec les appareils de la série HP OfficeJet :

1. Insérez le papier photo HP Premium dans le bac d'alimentation de l'imprimante, le logo Hewlett-Packard vers l'arrière.
2. Sélectionnez « Imprimer » dans votre application.
3. Sélectionnez « HP Premium Photo Paper » comme type de papier.
4. Sélectionnez la qualité d'impression Supérieure (« Best ») pour obtenir des images de la plus haute qualité.
5. Sélectionnez le format « A (8,5 x 11 in) ».

Pour imprimer avec les copieurs/scanneurs/imprimantes HP de la série 300 :

1. Insérez la cartouche Photo HP dans l'imprimante
2. Insérez le papier photo HP Premium dans le bac d'alimentation de l'imprimante, le logo Hewlett-Packard vers l'arrière.
3. Sélectionnez « Imprimer » dans votre application.
4. Sélectionnez « HP Premium Photo Paper » comme type de papier.
5. Sélectionnez la qualité d'impression Supérieure (« Best ») pour obtenir des images de la plus haute qualité.
6. Sélectionnez le format « A (8,5 x 11 in) ».

Pour copier avec HP OfficeJet Pro et les copieurs couleur HP Color Copiers :

1. Insérez le papier photo HP Premium dans le bac d'alimentation de l'imprimante, le logo Hewlett-Packard vers le haut.
2. Appuyez sur le bouton de type de papier et utilisez les boutons Plus (+) et Moins (-) jusqu'à ce que « Photo Paper » s'affiche.
3. Appuyez sur le bouton « Select/Resume ».
4. Appuyez sur le bouton de qualité d'impression Supérieure (« Best »).
5. Appuyez sur « Color » pour copier.
6. Pour réaliser plusieurs copies, consultez le manuel d'utilisation du HP OfficeJet Pro ou du copieur couleur HP.

Suggestions de projets

Le papier photo HP Premium vous permet d'imprimer à la maison vos propres photos prêtes pour l'encadrement. Vous obtiendrez des résultats professionnels pour toutes vos photographies importantes — mariages, portraits de famille, photos de vacances ou toute photo que vous désirez exposer ou offrir en cadeau.

Pour obtenir des suggestions d'impression de photos et des projets à télécharger et à imprimer, visitez Printsville, le site Web HP de suggestions photographiques : www.hp.com/go/printsville.

Papel Fotográfico HP Premium

¡Imprima fotografías con calidad profesional en su propio hogar con su impresora de inyección de tinta HP y los papeles fotográficos HP!

Utilización con las impresoras de las series HP DeskJet y DeskWriter, HP OfficeJet Pro y con copiadoras HP a color:

1. Coloque el cartucho fotográfico HP dentro de la impresora (solo para la serie DeskJet 690C HP)*.
2. Introduzca el papel fotográfico HP Premium en la bandeja INTERIOR de la impresora con el logotipo Hewlett-Packard hacia arriba.
3. Seleccione el comando "Imprimir" de su aplicación.
4. Seleccione el tipo de papel como "papel fotográfico HP Premium" (si no hay papel fotográfico disponible en la lista de valores, seleccione "papel satinado HP").
5. Seleccione la calidad de impresión "Máxima Resolución" (Best) para imprimir imágenes con la mejor calidad.
6. Seleccione el tamaño de papel "A (8,5 x 11 in)" como opción apropriada.

* Si posee una impresora HP DeskJet 690C, 692C, 693C, o 694C y utiliza cartuchos fotográficos HP con papel fotográfico HP Premium, se recomienda que transfiera la versión actualizada del controlador (versión 11.0 o superior) para obtener resultados óptimos de impresión. Para transferirlo, navegue a www.hp.com/support/home_products e introduzca el nombre de su producto. Una vez allí deberá seleccionar "Purchase a Performance Boost for your HP DeskJet" y seguir las instrucciones. Si utiliza Windows NT, no necesita transferir el nuevo controlador.

Utilización con las impresoras de las series HP DeskJet 900 o HP PhotoSmart P:

1. Introduzca el papel fotográfico HP Premium en la bandeja interior de la impresora con el logotipo de Hewlett-Packard hacia arriba.
2. Seleccione el comando "Imprimir" de su aplicación.
3. Seleccione el modelo apropriado de impresora HP en la ventana de diálogo de configuración de impresión.
4. Seleccione el tipo de papel como "papel fotográfico HP Premium, satinado"
5. Seleccione la calidad de impresión "Máxima Resolución" (Best) para imprimir imágenes con la mejor calidad.
6. Seleccione el tamaño de papel "U.S. Carta (8,5 x 11 in)" como opción apropiada.

Utilización con las impresoras fotográficas HP PhotoSmart:

1. Introduzca el papel fotográfico HP Premium en la bandeja interior de la impresora con el logotipo de Hewlett-Packard hacia abajo.
2. Seleccione el comando "Imprimir" de su aplicación.
3. Seleccione el modelo apropriado de impresora HP PhotoSmart en la ventana de diálogo de configuración de impresión.
4. Seleccione el tipo de papel como "papel fotográfico satinado HP PhotoSmart".
5. Seleccione la calidad de impresión "Máxima Resolución" (Best) para imprimir imágenes con la mejor calidad.
6. Seleccione el tamaño de papel "U.S. Carta (8,5 x 11 in)" como opción apropiada.

Utilización con las impresoras de la serie HP OfficeJet:

1. Introduzca el papel fotográfico HP Premium en la bandeja interior de la impresora con el logotipo Hewlett-Packard hacia atrás.
2. Seleccione el comando "Imprimir" de su aplicación.
3. Seleccione el tipo de papel como "papel fotográfico HP Premium".
4. Seleccione la calidad de impresión "Máxima Resolución" (Best) para imprimir imágenes con la mejor calidad.
5. Seleccione el tamaño de papel "A (8,5 x 11 in)" como opción apropiada.

Utilización con la impresora/escáner/copiadora HP serie 300:

1. Coloque el cartucho fotográfico HP en la impresora.
2. Introduzca el papel fotográfico HP Premium en la bandeja interior de la impresora con el logotipo Hewlett-Packard hacia atrás.
3. Seleccione el comando "Imprimir" de su aplicación.
4. Seleccione el tipo de papel como "papel fotográfico HP Premium."
5. Seleccione la calidad de impresión "Máxima Resolución" (Best) para imprimir imágenes con la mejor calidad.
6. Seleccione el tamaño de papel "A (8,5 x 11 in)" como opción apropiada.

Para hacer fotocopias con las copiadoras a color HP OfficeJet Pro y HP:

1. Introduzca el papel fotográfico HP Premium en la bandeja interior de la impresora con el logotipo Hewlett-Packard hacia arriba.
2. Pulse el botón de tipo de papel y utilice los botones (+) y (-) hasta que aparezca "Papel fotográfico" en la pantalla.
3. Pulse el botón "Seleccionar/Reanudar".
4. Pulse el botón "Máxima Resolución" (Best) para obtener la calidad de resolución más alta.
5. Pulse "Color" para generar la copia.
6. Para realizar múltiples copias, consulte el manual del usuario de la HP OfficeJet Pro o copiadora a color HP.

Ideas para proyectos

El papel fotográfico HP Premium le permite imprimir sus propias fotos para enmarcar, sin moverse de su propia casa. Obtenga resultados con calidad profesional para todas sus fotografías importantes: bodas, retratos familiares, fotos vacacionales o cualquier otra imagen que quiera enseñar o regalar.

Si desea algunas sugerencias de impresión, junto a varios proyectos que pueda bajar e imprimir, visite Printsville, el sitio web HP lleno de ideas para imprimir en www.hp.com/go/printsville.

BRING OUT THE BEST IN YOUR EPSON PRINTER

Epson ink jet printers deliver page-after-page of quality graphics and text. By using genuine Epson ink jet supplies, you'll never have to worry about extra maintenance for your printer. Remember, Epson supplies guarantee Epson quality.

- **Guaranteed compatibility**
- **Optimum output quality**
- **Made of highest quality materials**
- **Backed by Epson customer support**

EPSON recommends EPSON ink jet papers and special media be used in your EPSON ink jet printer for best results. Refer to the Print Media Compatibility chart in this brochure for the correct products, OR CALL EPSON Accessories at 1-800-873-7766. Website: www.epsonsupplies.com

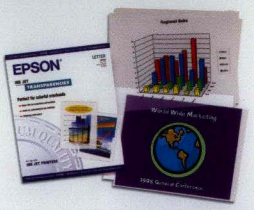

Paper can differ according to many different specifications; it's helpful to know what these various "specs" really mean.

Paper Term	Description
Basis Weight	The mass per unit. Pounds per ream/grams per meter squared
Thickness	Measured in mils (1000/inch)
Opacity	The ability to see through the paper 0% = transparent 100% = opaque
ISO™ Brightness	The measurement of diffused light reflectance. The higher the value, the brighter the paper

Various types of paper can really make a difference.

INK JET
