Discovery requests info from DC depo Lyle Rosbotham Jul 24 '98

Lyle Rosbotham

Lyle's title: Senior Art Director, Book Division

Lyle's boss: David Griffin, Design Director, Book Division, reviews projects

Request any files, artwork, work sheets, etc. Related to the Ed Ins product in David Griffin's possession. Can we ask if he signed off on the artwork or knows where the pencil sketches and final artwork are? Did he supply research materials to Cutler?

Barbara Brownell: editor on staff for Ed Ins project- in on discussions with Lyle, Warren

Request same as David Griffin

Megan Ullman: same as above, also: did she choose critters to be shown? Did Patty Frakes? Does Patty Frakes still work at NGS? freelance?

Were the above named the group that formed a consensus as to final work?

Lyle mentioned large formal positive dupes, 4X5 or 8X10 of artwork that were made before sending out for separations. This is to have a fallback should the originals be lost or damaged by the separator. These dupes are held in the Illustration Library.

Lyle would get it to electronic files in order to position the various heads, numbers and body type. These low res files of sketches and final art were output in Quark on film. Ask for these low resolution Quark copies.

Warren Cutler Jul 24 '98, 1:00 P.M.

Who is Mary Ann Kasauris sp.?

Where is the Living Reef book shown in printouts that Cutler gave to the secretary of the lawyer at NGS after the suit came up? Was that the book that printouts given to us were generated from?

Who gave Cutler reference material? Were the ref mat given to the first artist (name?) returned to NGS to be given to Cutler?

Who did artwork on folded 2-page illustration EX 14?

Send copy of "FISH" children's book done for NGS by Cutler. Important because he may have used our stuff on that one too. Need to know which one came first.

Remember, Cutler said with certainty, "I never saw it (finished artwork) again after I turned it in."

sad Saw fish (LR) cover
Ex 1A 4 page divers - told difference
always said slightly different

ooks ie brought "The mysterious Undersea World" NGS

"A Field Guide to Atl. Coast fishes"
Peterson Field Guide Series 32

"Animals That Live in the Sea" NGS

* "The Wild Places" Harper Row

Japanese Book Y-2900
0045-0006-4447

11

* No fish in this book - landscapes including mangroves

Art work not returned to Cutler - never saw it again!

did work on FISH author? NGS
did not receive original art on this "yet" — may get if 1 yr. after contract ends
